Lot entitlements and financial information

Lot entitlements are used to determine the proportion of body corporate expenses each lot owner is responsible for. The community management statement contains two schedules of lot entitlements - a contribution schedule of lot entitlements and an interest schedule of lot entitlements, outlining the entitlements for each lot in the scheme. The contribution schedule lot entitlement for a lot (as a proportion of the total for all lots) is used to calculate the lot owner's contribution to most body corporate expenses, and the interest schedule lot entitlement for a lot (as a proportion of the total for all lots) is used to calculate the lot owner's contribution to insurance expenses in some cases. Lots may have different lot entitlements and therefore may pay different contributions to the body corporate's expenses.

You should consider the lot entitlements for the lot compared to the lot entitlements for other lots in the scheme before you sign a contract of sale.

Common property and assets

When you buy a lot in a community titles scheme, you also own a share in the common property and assets for the scheme. Common property can include driveways, lifts and stairwells, and shared facilities. Assets can include gym equipment and pool furniture.

The body corporate is usually responsible for maintaining common property in a good and structurally sound condition. An owner is usually responsible for maintaining common property or assets that their lot has been allocated exclusive use of, or for maintaining improvements to common property or utility infrastructure that is only for the benefit of their lot. The body corporate may have additional maintenance responsibilities, depending on the plan of subdivision the scheme is registered under. For more information, visit www.qld.gov.au/buyingbodycorporate.

Sinking fund forecast and balance - maintenance and replacement of common property / assets

The body corporate must have a sinking fund to pay for future capital expenses, such as repairs or replacement of common property and assets. The body corporate must raise enough money in its sinking fund budget each year to provide for spending for the current year and to reserve an amount to meet likely spending for 9 years after the current year. If there is not enough money in the sinking fund at the time maintenance is needed, lot owners will usually have to pay additional contributions.

Prior to signing a contract, you should consider whether the current sinking fund balance is appropriate to meet likely future capital expenditure.

Does the body corporate have a current sinking fund forecast that estimates future capital expenses and how much money needs to be accumulated in the sinking fund?

- ☒ Yes - you can obtain a copy from the body corporate records.
☐ No

Current sinking fund balance (as at date of certificate): \$169,541.44CR

Improvements to common property the lot owner is responsible for

A lot owner may make improvements to the common property for the benefit of their lot if authorised by the body corporate or under an exclusive use by-law. The owner of the lot is usually responsible for maintenance of these improvements, unless the body corporate authorises an alternative maintenance arrangement or it is specified in the relevant by-law.

☒ There are no authorised improvements to the common property that the owner of the lot is responsible for maintaining in good condition.

☐ Details of authorised improvements to the common property that the owner of the lot is responsible for maintaining in good condition are given with this certificate.

Body corporate assets

The body corporate must keep a register of all body corporate assets worth more than \$1,000.

- ☒ The body corporate does not have any assets that it is required to record in its register.
☐ A copy of the body corporate register of assets is given with this certificate.

Insurance

The body corporate must insure the common property and assets for full replacement value and public risk.

The body corporate must insure, for full replacement value, the following buildings where the lots in the scheme are created:

- under a building format plan of subdivision or volumetric format plan of subdivision - each building that contains an owner's lot (e.g. a unit or apartment); or
- under a standard format plan of subdivision - each building on a lot that has a common wall with a building on an adjoining lot.

Body corporate insurance policies

Details of each current insurance policy held by the body corporate including, for each policy, the:

- type of policy;
- name of the insurer;
- sum insured;
- amount of premium (\$11,760.00)
- excess payable on a claim

are given with this certificate.

Alternative insurance

Where the body corporate is unable to obtain the required building insurance, an adjudicator may order that the body corporate take out alternative insurance. Information about alternative insurance is available from www.qld.gov.au/buyingbodycorporate.

Does the body corporate currently hold alternative insurance approved under an alternative insurance order?

☐ Yes

☒ No

Lot owner and occupier insurance

The occupier is responsible for insuring the contents of the lot and any public liability risks which might occur within the lot.

The owner is responsible for insuring buildings that do not share a common wall if the scheme is registered under a standard format plan of subdivision, unless the body corporate has set up a voluntary insurance scheme and the owner has opted-in.

More information about insurance in community titles schemes is available from your solicitor or www.qld.gov.au/buyingbodycorporate.

Contracts and authorisations

Caretaking service contractors and letting agents -
Accommodation Module, Commercial Module and Standard Module

A body corporate may engage service contractors to provide services to the body corporate to assist in the management of the scheme.

If the Standard Module, Accommodation Module, or Commercial Module apply to a community titles scheme, the body corporate may also authorise a person to conduct a letting agent business for the scheme, that is, to act as the agent of owners of lots in the scheme who choose to use the person's services for the letting of their lot.

A service contractor who is also authorised to be a letting agent for the scheme is called a caretaking service contractor. Together, an agreement to engage a person as a caretaking service contractor and authorise a person as a letting agent is typically referred to as 'management rights'.

The maximum term of a service contract or authorisation entered into by a body corporate is:

- 10 years if the Standard Module applies to the scheme; and
- 25 years if the Accommodation Module or Commercial Module applies to the scheme.

You may inspect the body corporate records to find information about any engagements or authorisations entered into by the body corporate, including the term of an engagement or authorisation and, for an engagement, duties required to be performed and remuneration payable by the body corporate.

Has the body corporate engaged a caretaking services contractor for the scheme?

☐ Yes - Name of caretaking service contractor engaged:

☒ No

Has the body corporate authorised a letting agent for the scheme?

Summary of Significant Accounting Policies

13 HAMEL ROAD CTS 28421
13 Hamel Road HOLLAND PARK WEST QLD 4121
1 July 2024 to 30 June 2025
Printed 06/08/25 11:56

Basis of Preparation

The Body Corporate agent has prepared the financial statements on the basis that the Body Corporate is a non-reporting entity because there are no users dependent on general purpose financial statements. These financial statements are therefore special purpose financial statements that have been prepared to meet the information needs of members.

The financial statements have been prepared in accordance with the significant accounting policies disclosed below, which the Body Corporate agent has determined are appropriate to meet the purposes of preparation. Such accounting policies are consistent with the prior period unless otherwise stated.

Basis of Accounting

The financial statements have been prepared on a modified accruals basis and are based on historical costs. Income has been recorded when receivable from the owners and the expenses are recorded when approved for payment, unless otherwise stated. Further manual accruing of expenses may occur as instructed.

Cash and cash equivalents

Cash and cash equivalents comprise deposits held on call with banks and other short-term highly liquid investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

Goods and Services Tax

Income, expenditure and assets of the Corporation are recognised net of the amount of Goods and Services Tax (GST), except where the GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST.

The net amount of GST payable to, or recoverable from, the ATO is presented as the GST Control Account on the Statement of Assets and Liabilities.

Income Tax

The income tax expense charged to the Statement of Income and Expenditure comprises current income tax expense (income) and is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the end of the reporting period.

Current tax liabilities (assets) are therefore measured at amounts expected to be paid to (recovered from) the ATO.

Only the non-member income of the Corporation is assessable for income tax purposes, as member income is excluded under the principle of mutuality.

The 5 Ps of Safe Excavation

<https://www.byda.com.au/before-you-dig/best-practice-guides/>

Plan	Prepare	Pothole	Protect	Proceed
Plan your job. Use the BYDA service at least one day before your job is due to begin, and ensure you have the correct plans and information required to carry out a safe project.	Prepare by communicating with asset owners if you need assistance. Look for clues onsite. Engage a Certified Locator.	Potholing is physically sighting the asset by hand digging or hydro vacuum extraction.	Protecting and supporting the exposed infrastructure is the responsibility of the excavator. Always erect safety barriers in areas of risk and enforce exclusion zones.	Only proceed with your excavation work after planning, preparing, potholing (unless prohibited), and having protective measures in place.
